

CONTENTS

	<i>Introduction</i>	<i>xix</i>
CHAPTER 1	The 3ds Max Interface	1
	Navigate the Workspace	1
	User Interface Elements	2
	Viewports	4
	ViewCube	6
	Mouse Buttons	7
	Quad Menus	8
	Display of Objects in a Viewport	9
	Viewport Navigation	10
	Transforming Objects Using Gizmos	11
	Graphite Modeling Tools Set	13
	Command Panel	14
	Object Parameters and Values	15
	Modifier Stack	15
	Objects and Sub-objects	16
	Time Slider and Track Bar	16
	File Management	16
	Setting a Project	17
	Version Up!	18
CHAPTER 2	Your First 3ds Max Project	19
	Set Up a Project Workflow	19
	Exercise 2.1: How to Set a Project	20
	The Secret to Accurate Modeling: Reference Material!	20
	Exercise 2.2: Setting Up the Modeling Reference	21
	Building a Simple Model	24
	Exercise 2.3: Start with a Primitive	24
	Exercise 2.4: Modeling in Sub-Object Mode	25
	Exercise 2.5: Bring on the Bevel	28
	Exercise 2.6: Chamfer Time	31

Creating Details Using Splines	36
Exercise 2.7: Building the Handle	37
Lathing, Extruding, and Beveling to Create 3D from 2D	43
Exercise 2.8: Lathe to Make a Whole	43
Exercise 2.9: Creating the Clock Numbers and Hands	46
Bringing It All Together	51
Exercise 2.10: Using Merge	51
CHAPTER 3 Modeling in 3ds Max: Architectural Model Part I	55
Setting Up the Scene	56
Exercise 3.1: Setting Up Units	56
Exercise 3.2: Importing a CAD Drawing	57
Building the Room	59
Exercise 3.3: Creating the Walls	59
Exercise 3.4: Creating the Doors	62
Exercise 3.5: Creating the Window	65
Exercise 3.6: Adding a Floor and a Ceiling	66
Adding Special Details to the Room	68
Exercise 3.7: Creating Baseboard Moldings	69
CHAPTER 4 Modeling in 3ds Max: Architectural Model Part II	75
Model the Couch	75
Exercise 4.1: Blocking Out the Couch Model	76
Exercise 4.2: Using NURMS to Add Softness	78
Exercise 4.3: Building Detail on the Couch Model	80
Exercise 4.4: Creating the Chaise Lounge	83
Exercise 4.5: Modeling the Couch Feet	85
Modeling the Lounge Chair	87
Exercise 4.6: Creating Image Planes	87
Exercise 4.7: Adding the Images	88
Exercise 4.8: Building the Splines for the Chair Frame	89
Exercise 4.9: Building the Chair Cushion	94
Exercise 4.10: Creating the Chair's Base	97
Bringing It All Together	101

CHAPTER 5 Introduction to Animation	105
Animating the Ball	106
Exercise 5.1: Setting Keyframes	106
Exercise 5.2: Copying Keyframes	107
Exercise 5.3: Using the Track View - Curve Editor	108
Reading Animation Curves	111
Refining the Animation	113
Exercise 5.4: Editing Animation Curves	114
Exercise 5.5: Squash and Stretch	116
Exercise 5.6: Setting the Timing	117
Exercise 5.7: Moving the Ball Forward	119
Exercise 5.8: Using the XForm Modifier	121
Exercise 5.9: Animating the XForm Modifier	122
Exercise 5.10: Correcting Rotation	123
CHAPTER 6 Animation Principles	125
Anticipation and Momentum in Knife Throwing	125
Exercise 6.1: Blocking Out the Animation	125
Exercise 6.2: Trajectories	128
Exercise 6.3: Adding Rotation	129
Exercise 6.4: Adding Anticipation	131
Exercise 6.5: Following Through	133
Exercise 6.6: Transferring Momentum to the Target	134
CHAPTER 7 Character Modeling Part I	137
Setting Up the Scene	137
Exercise 7.1: Creating the Image Planes	138
Exercise 7.2: Adding the Images to the Planes	139
Blocking Out the Alien Model	140
Exercise 7.3: Forming the Torso	140
Exercise 7.4: Creating Symmetry	144
Exercise 7.5: Blocking Out the Arms	145
Exercise 7.6: Blocking Out the Leg	149
Exercise 7.7: Refining the Body	153
Exercise 7.8: Building the Neck	160

CHAPTER 8	Character Modeling Part II	165
	Creating the Alien Head	165
	Exercise 8.1: Blocking Out the Head	165
	Exercise 8.2: Building the Nose	167
	Building the Alien Hand	173
	Exercise 8.3: Building the Palm of the Hand	173
	Exercise 8.4: Beveling the Fingers	174
	Building the Foot	179
	Exercise 8.5: Blocking Out the Foot	179
	Exercise 8.6: Beveling the Toes	181
	Completing the Alien	183
	Exercise 8.7: Attaching to the Body	183
	Exercise 8.8: Using Symmetry	188
	Exercise 8.9: Finishing the Head	188
CHAPTER 9	Introduction to Materials	195
	Navigate the Slate Material Editor	195
	Identify the Standard Material	197
	Standard Materials	197
	Identify the mental ray Material	198
	Identifying Shaders	198
	Build Materials for the Couch	199
	Exercise 9.1: Creating a Standard Material	199
	Exercise 9.2: Applying the Material to the Couch	200
	Exercise 9.3: Adding a Bitmap	202
	Exercise 9.4: Mapping Coordinates	204
	Exercise 9.5: Adding Materials to the Feet	206
	Exercise 9.6: Applying a Bump Map	207
	Build Materials for the Lounge Chair	208
	Exercise 9.7: Creating a Leather Material for the Chair Cushion	209
	Exercise 9.8: Creating a Reflective Material	210
	Build Materials for the Window	213
	Exercise 9.9: Creating a Multi/Sub-Object Material	213

CHAPTER 10	Textures and UV Workflow: The Alien	219
	Define UVs on the Alien's Body	220
	Exercise 10.1: Seaming the Alien's Body	220
	Unwrap UVs on the Alien's Body	226
	Exercise 10.2: Unwrapping the Alien's Arm	226
	Exercise 10.3: Unwrapping the Alien's Body	230
	Exercise 10.4: Arranging the Alien's UVs	231
	Build the Material and Apply It to the Alien	235
	Exercise 10.5: Applying the Color Map	236
	Exercise 10.6: Applying the Bump Map	237
	Exercise 10.7: Applying the Specular Map	239
CHAPTER 11	Character Studio: Rigging	243
	Character Studio Workflow	243
	General Workflow	244
	Associating a Biped with the Alien Model	245
	Exercise 11.1: Creating and Modifying the Biped	246
	Exercise 11.2: Adjusting the Torso and Arms	252
	Exercise 11.3: Adjusting the Neck and Head	254
	Skinning the Alien Model	255
	Exercise 11.4: Applying the Skin Modifier	255
	Exercise 11.5: Testing the Model	256
	Exercise 11.6: Tweaking the Skin Modifier	258
	Exercise 11.7: Testing the Alien Model Rig	261
	Exercise 11.8: Controlling the View	263
CHAPTER 12	Character Studio: Animation	265
	Animating the Alien	265
	Exercise 12.1: Adding a Run-and-Jump Sequence	266
	Freeform Animation	267
	Exercise 12.2: Moving the Head	268
	Exercise 12.3: Moving the Arms	270
	Exercise 12.4: Completing the Motion Sequence	272
	Modifying Animation in the Dope Sheet	272
	Exercise 12.5: Adding Footsteps Manually	273
	Exercise 10.6: Using the Dope Sheet	274

CHAPTER 13	Introduction to Lighting: Interior Lighting	279
	Recognizing 3ds Max Lights	279
	Standard Lights	280
	Target Spotlight	280
	Target Direct Light	282
	Free Spot or Free Direct Light	283
	Omni Light	284
	Lighting a Still Life	285
	Exercise 13.1: Basic Light Setup	286
	Exercise 13.2: Adding Shadows	289
	Exercise 13.3: Adding a Fill Light	290
	Exercise 13.4: Attenuation of the Fill Light	292
	Selecting a Shadow Type	294
	Atmospherics and Effects	296
	Exercise 13.5: Creating a Volumetric Light	296
	Volume Light Parameters	300
	The Light Lister	301
CHAPTER 14	3ds Max Rendering	303
	Navigate the Render Setup Dialog	303
	Common Tab	304
	Choosing a Filename	305
	Rendered Frame Window	306
	Render Processing	306
	Assign Renderer	307
	Render a Scene	308
	Exercise 14.1: Rendering the Bouncing Ball	308
	Work with Cameras	309
	Exercise 14.2: Creating a Camera	311
	Exercise 14.3: Animating a Camera	312
	Exercise 14.4: Safe Frames	314
	Raytraced Reflections and Refractions	315
	Exercise 14.5: Raytrace Material	316
	Exercise 14.6: Raytrace Mapping	318
	Exercise 14.7: Refractions Using the Raytrace Material	319
	Exercise 14.8: Refractions Using Raytrace Mapping	322

	Render the Interior and Furniture	324
	Exercise 14.9: Adding Raytraced Reflections	324
	Exercise 14.10: Outputting the Render	325
CHAPTER 15	mental ray	329
	Navigate the mental ray Renderer	329
	Exercise 15.1: Enabling the mental ray Renderer	329
	mental ray Sampling Quality	330
	Navigate the Final Gather Parameters	332
	Basic Group	333
	Advanced Group	335
	The mental ray Rendered Frame Window	335
	Navigate mental ray Materials	336
	Exercise 15.2: Setting Up the Material Editor	336
	Exercise 15.3: Using Arch & Design Material Templates	338
	Exercise 15.4: Creating Arch & Design Materials	341
	Exercise 15.5: Using the Multi/Sub-Object Material and Arch & Design	342
	Use Photometric Lights with mental ray	344
	Exercise 15.6: Using Photometric Lights in mental ray Renderings	344
	Use the Daylight System	350
	Exercise 15.7: Using the Daylight System in mental ray Renderings	350
APPENDIX A	Autodesk 3ds Max Certification	355
	<i>Index</i>	359
