Part 1 Health Care Information..... 1

1 Introduction to Health Care Information..... 3

Learning Objectives

Types of Health Care Information

Internal Data and Information: Patient Specific—Clinical

Internal Data and Information: Patient Specific—Administrative

Internal Data and Information: Patient Specific—Combining Clinical
and Administrative

Internal Data and Information: Aggregate—Clinical

Internal Data and Information: Aggregate—Administrative

Internal Data and Information: Aggregate—Combining Clinical and
Administrative

External Data and Information: Comparative

External Data and Information: Expert or Knowledge Based

Summary

Key Terms

Learning Activities

2 Health Care Data Quality 49

Learning Objectives

Data versus Information

Problems with Poor-Quality Data

Ensuring Data and Information Quality

Summary

Key Terms

Learning Activities

3 Health Care Information Regulations, Laws, and Standards..... 67

Learning Objectives

Licensure, Certification, and Accreditation

Patient Safety Organizations

Legal Aspects of Managing Health Information
Summary
Key Terms
Learning Activities

Part 2 Health Care Information Systems..... 101

4 History and Evolution of Health Care Information Systems 103

Learning Objectives
Definition of Terms
History and Evolution
Summary
Key Terms
Learning Activities

5 Clinical Information Systems 133

Learning Objectives
The Electronic Health Record
Other Major HCIS Types
Fitting Applications Together
Overcoming Barriers to Adoption
Summary
Key Terms
Learning Activities

6 Federal Efforts to Enhance Quality of Patient Care through the Use of Health Information Technology 179

Learning Objectives
HITECH Act
Health Care Reform: New Modes of Care and Payment Reform
Health Information Exchange
Information Technology Ramifications of New Models of Care and Payment Reform
Summary
Key Terms
Learning Activities

7 System Acquisition 209

Learning Objectives
System Acquisition: A Definition
Systems Development Life Cycle
System Acquisition Process
Project Management Tools
Things That Can Go Wrong
Summary
Key Terms
Learning Activities

8	System Implementation and Support	241
	Learning Objectives	
	System Implementation Process	
	Managing the Organizational Aspects	
	System Support and Evaluation	
	Summary	
	Key Terms	
	Learning Activities	
Part 3	Information Technology	271
9	Technologies That Support Health Care Information Systems	273
	Learning Objectives	
	Information Technology Adoption Challenges	
	Data Management and Access	
	Networks and Data Communications	
	Information Distribution Schemes	
	Remote Access Technologies	
	Internet and Web Concepts and Applications	
	E-Commerce in Health Care	
	Clinical and Managerial Decision Support	
	Information Systems Architecture	
	Summary	
	Key Terms	
	Learning Activities	
10	Health Care Information System Standards	317
	Learning Objectives	
	Standards Development Process	
	Classification Standards	
	Vocabulary and Terminology Standards	
	Health Record Content and Functional Standards	
	Summary	
	Key Terms	
	Learning Activities	
11	Security of Health Care Information Systems	351
	Learning Objectives	
	The Health Care Organization's Security Program	
	Threats to Health Care Information	
	Overview of the HIPAA Security Rule	
	Outline of the HIPAA Security Rule	
	HITECH Expansion of the HIPAA Security Rule	
	Administrative Safeguards	
	Physical Safeguards	
	Technical Safeguards	

Security in a Wireless Environment
 Remote Access Security
 Summary
 Key Terms
 Learning Activities

Part 4 Senior Management IT Challenges..... 393

12 Organizing Information Technology Services 395

Learning Objectives
 Information Technology Functions
 Organizing IT Staff and Services
 In-House versus Outsourced IT
 Evaluating IT Effectiveness
 Summary
 Key Terms
 Learning Activities

13 IT Alignment and Strategic Planning 437

Learning Objectives
 IT Planning Objectives
 Overview of Strategy
 Vectors for Arriving at IT Strategy
 The IT Asset
 A Normative Approach to Developing Alignment and IT Strategy
 IT Strategy and Alignment Challenges
 Characteristics of Strategic Thinking
 Summary
 Key Terms
 Learning Activities

14 Strategy Considerations 467

Learning Objectives
 Complementary Strategies
 Strategy Evolution
 Governing Concepts
 The Competitive Value of IT
 Summary
 Key Terms
 Learning Activities

15 IT Governance and Management 491

Learning Objectives
 IT Governance
 IT Effectiveness
 IT Budget
 Summary
 Key Terms
 Learning Activities

16	Management's Role in Major IT Initiatives.....	521
	Learning Objectives	
	Managing Change Due to IT	
	Managing IT Projects	
	Understanding IT Initiative Failures	
	Summary	
	Key Terms	
	Learning Activities	
17	Assessing and Achieving Value in Health Care Information Systems.....	555
	Learning Objectives	
	Definition of IT-Enabled Value	
	The IT Project Proposal	
	Steps to Improve Value Realization	
	Why IT Fails to Deliver Returns	
	Analyses of the IT Value Challenge	
	Summary	
	Key Terms	
	Learning Activities	
18	Health IT Leadership: A Compendium of Case Studies.....	595

Appendixes

A.	Overview of the Health Care IT Industry	641
B.	Sample Project Charter	653
C.	International Adoption and Use of Health Information Technology.....	665
	Index.....	681
