Introduction.....	i
The Author.....	vii
Acknowledgements.....	ix
Download and Install Blender.....	xi
Recommended Viewing.....	xv
CH01 The Blender Interface.....	1
1.0 Starting Blender.....	1
1.1 The Blender Screen.....	3
1.2 Interface Input.....	4
1.3 Interface Arrangement.....	6
1.4 Modifying the Interface.....	7
1.5 Blender Windows.....	9
1.6 The 3D Window.....	10
1.7 The Info (Information) Window.....	20
1.8 The Properties Window.....	21
1.9 The Outliner Window.....	23
1.10 Multiple Scenes.....	25
1.11 Expanding the Outliner Window.....	27
1.12 The User Preferences Window.....	28
CH02 Navigate and Save.....	33
2.0 Navigate and Save.....	33
2.1 Windows File Explorer.....	34
2.2 Blender File Browser.....	36
2.3 Saving Your Work.....	39
2.4 The Concept of Files.....	40
2.5 The Append or Link Command.....	41
2.6 Importing Objects.....	42
2.7 Packing Data.....	45

CH03	Working with Objects.....	47
3.0	Starting a New File.....	48
3.1	Modifying the Scene.....	48
3.2	Modifying Objects (Modeling).....	48
3.3	Placing Objects in the Scene.....	49
3.4	Deleting Objects.....	50
3.5	Naming Objects.....	50
3.6	Edit Mode and Object Mode.....	51
3.7	Viewport Shading.....	52
3.8	Mesh Types.....	52
3.9	Duplicating Objects.....	53
3.10	Other Types of Objects.....	53
3.11	Object Placement.....	53
3.12	Manipulating Objects.....	53
3.13	The Transformation Widget.....	55
3.14	Smooth and Flat Shading Options.....	55
CH04	Editing Objects.....	57
4.0	The Mesh Object.....	58
4.1	Edit Mode Selection.....	58
4.2	Selecting Vertices, Edges and Faces.....	59
4.3	Manipulating Selected Vertices, Edges and Faces.....	59
4.4	Creating Vertices.....	61
4.5	Specials Menu.....	61
4.6	Creating Vertex Groups.....	62
4.7	Center Points.....	64
4.8	Extruding Shapes.....	64
4.9	Proportional Vertex Editing.....	66
4.10	Creating a Landscape.....	68
4.11	Edge and Loop Selection.....	68
4.12	Inset Faces.....	69
4.13	Deleting and Adding Vertices, Edges, or Faces.....	70
CH05	Editing Tools.....	73
5.0	The Knife Tool.....	74
5.1	Joining and Separating Meshes.....	75
5.2	Object Groups.....	77
5.3	Sculpt Mode.....	80
5.4	Curves Circles and Paths.....	85
5.5	The Spin Tool.....	88
5.6	Spin Duplication.....	91
5.7	The Screw Tool.....	92
5.8	Modifiers for Editing.....	94
5.9	Dupliverts.....	102
5.10	Practical Examples.....	104

CH06 Materials	111
6.0 Material Settings	112
6.1 Material Buttons	114
6.2 Material Colors	114
6.3 Adding a New Material	114
6.4 The Preview Tab	115
6.5 The Diffuse Tab	115
6.6 The Specular Tab	117
6.7 The Hardness Value	119
6.8 Ramp Shaders	119
6.9 Transparency and Reflection	127
6.10 Halo Settings	128
6.11 Vertex Painting	129
6.12 Materials and the GUI	134
6.13 The Outliner Window – Materials	138
6.14 Assigning Texture Color	139
CH07 Textures	141
7.0 Texture Prerequisites	142
7.1 Textures in General	142
7.2 Material Textures	143
7.3 Texture Display in the 3D Window	146
7.4 Texture Mapping	146
7.5 Displacement Mapping	148
7.6 Surface Displacement	149
7.7 UV Mapping	152
7.8 Selective UV Texture Mapping	158
7.9 Unwrapping with Seams	159
7.10 Texture Paint	161
7.11 Paint Image Texture	167
CH08 World Settings	169
8.0 The Properties Window World Buttons	170
8.1 Mist Effect	173
8.2 Texture as a Background	175
8.3 Image as a Background	177
8.4 Image as a Template	178
8.5 Stars	179
CH09 Lighting and Cameras	181
9.0 Lamp Settings	182
9.1 Cameras	184
9.2 Camera Settings	185

9.3	Camera Switching.....	187
9.4	Camera Tracking.....	188

CH10 Rendering and Ray Tracing..... 189

10.0	The Properties Window Render Buttons.....	190
10.1	The Dimensions Tab.....	191
10.2	The Anti-Aliasing Tab.....	192
10.3	The Output Tab.....	192
10.4	Rendering a JPEG Image.....	193
10.5	Rendering a Movie File.....	194
10.6	Video Playback.....	196
10.7	Video Codecs.....	197
10.8	Making a Movie.....	197
10.9	Raytracing.....	198
10.10	Cycles Ray Trace Rendering.....	198

CH11 Animation Basics..... 199

11.0	The Animation Scene.....	200
11.1	Keyframes-Time-Interpolation.....	201
11.2	Animation Speed and Length.....	202
11.3	Inserting Keyframes.....	203
11.4	Viewing Your Animation.....	205
11.5	The Graph Editor Window.....	206
11.6	Reading the Graph.....	209
11.7	Editing the F-Curve.....	210
11.8	Other Types of Curves.....	213
11.9	The Curve Properties Panel.....	216
11.10	Automatic Keyframing.....	218
11.11	Animating Rotation.....	218
11.12	Rotation Using F-Curves.....	221
11.13	Animating Other Features.....	223
11.14	Keying Sets.....	225
11.15	Vertex Animation.....	226
11.16	Animation Following Curves.....	228
11.17	Following Path-Relationships.....	228
11.18	Following the Path-Constraints.....	237
11.19	Displacement Sound Animation.....	239
11.20	Sound Affect and Cast Modifier.....	242

CH12 3D Text..... 245

12.0	Creating 3D Text in Blender.....	246
12.1	The Object data Button "F".....	247
12.2	Fonts.....	248
12.3	Creating Text on a Curve.....	251
12.4	Converting Text to a Mesh Object.....	252

12.5	Converting Text to a Curve.....	252
12.6	Entering External Font.....	253
CH13 Nurbs and Metashapes.....		255
13.0	Using Nurbs Curves.....	256
13.1	Nurbs Circle.....	257
13.2	Nurbs Curve.....	259
13.3	Lofting.....	260
13.4	Meta Shapes.....	264
CH14 Modifiers in General.....		265
14.0	Object Modifiers in General.....	266
14.1	The Modifier Stack.....	268
14.2	The Modifier Group.....	269
14.3	UV Project Modifier.....	269
CH15 Modifiers – Generate.....		275
15.0	The Generate Group.....	276
15.1	Array Modifier.....	276
15.2	Bevel Modifier.....	278
15.3	Boolean Modifier.....	278
15.4	Build Modifier.....	280
15.5	Decimate Modifier.....	281
15.6	Edge Split Modifier.....	283
15.7	Mask Modifier.....	284
15.8	Mirror Modifier.....	285
15.9	Multiresolution Modifier.....	287
15.10	Remesh Modifier.....	288
15.11	Screw Modifier.....	289
15.12	Skin Modifier.....	290
15.13	Solidify Modifier.....	294
15.14	Subdivision Surface Modifier.....	295
15.15	Triangulation Modifier.....	297
15.16	Wireframe Modifier.....	297
CH16 Modifiers – Deform.....		299
16.0	Deform Modifiers.....	300
16.1	Armature Modifier.....	300
16.2	Cast Modifier.....	300
16.3	Corrective Smooth Modifier.....	301
16.4	Curve Modifier.....	301
16.5	Displace Modifier.....	303
16.6	Hook Modifier.....	305
16.7	Laplacian Smooth Modifier.....	307

16.8	Laplacian Deform Modifier.....	308
16.9	Lattice Modifier.....	310
16.10	Mesh Deform Modifier.....	311
16.11	Shrinkwrap Modifier.....	312
16.12	Simple Deform Modifier.....	313
16.13	Smooth Modifier.....	314
16.14	Warp Modifier.....	315
16.15	Wave Modifier.....	317

CH17 Modifiers – Simulate..... 319

17.0	Cloth Modifier.....	320
17.1	Collision Modifier.....	321
17.2	Dynamic Paint Modifier.....	322
17.3	Explode Modifier.....	328
17.4	Fluid Simulation Modifier.....	329
17.5	Ocean Modifier.....	331
17.6	Particle Instance Modifier.....	333
17.7	Particle System.....	333
17.8	Smoke Modifier.....	333
17.9	Soft Body Modifier.....	333

CH18 Particle Systems..... 335

18.0	The Default Particle System.....	336
18.1	The Emissions Tab.....	339
18.2	The Velocity Tab.....	339
18.3	More Effects.....	341
18.4	Particles Display as Other Objects.....	342
18.5	Particle Modifiers.....	343
18.6	Particle Buttons Tabs – Detail.....	345
18.7	Understanding Particle Systems.....	347
18.8	Material Influence on Particles.....	349
18.9	Creating Stars.....	350
18.10	Creating a Mist Effect.....	351
18.11	Particle Interaction.....	351
18.12	Wind Force.....	352
18.13	Sample Particle Settings.....	354
18.14	Snow Effect.....	354
18.15	Fire Simulation.....	355
18.16	Simple Fireworks.....	356
18.17	Keyed Particle Systems.....	356
18.18	Boids Particle Systems.....	360
18.19	Hair Particles.....	368
18.20	The Assignment Tab.....	374
18.21	Practical Exercises.....	375
18.22	Particle Modifiers.....	381
18.23	Fluid Particles.....	383

CH19 Constraints..... 387

19.0	Introduction to Constraints.....	388
19.1	Constraint Stacks.....	389
19.2	Transformation Constraints.....	389
19.3	The Transformation Constraint.....	390
19.4	Tracking Constraints.....	391
19.5	Relationship Constraints.....	391
19.6	The Action Constraint.....	392
19.7	The Shrinkwrap Constraint.....	393
19.8	The Rigid Body Joint Constraint.....	395
19.9	The Follow Path Constraint.....	398

CH20 Armatures..... 401

20.0	Child/Parent Relationship.....	402
20.1	Single Bone Armature.....	403
20.2	Adding Armatures.....	404
20.3	Armature Display Types.....	406
20.4	Multi-Bone Armatures.....	407
20.5	Multi-bone by Subdivision.....	409
20.6	Multi-bone by Extrusion.....	409
20.7	Naming Bones.....	410
20.8	Deforming a Mesh.....	411
20.9	Vertex Group vs Field of Influence.....	417
20.10	Inverse Kinematics Constraint.....	417
20.11	Spline IK Constraint.....	419
20.12	Forward.....	420

CH21 Character Rigging..... 421

21.0	Human Character Model.....	422
21.1	Centering the Cursor.....	423
21.2	Creating the Armature.....	424
21.3	Bone Naming.....	424
21.4	Adding More Bones.....	425
21.5	Creating Arm Bones.....	427
21.6	Mirror Bones.....	429
21.7	Creating Leg Bones.....	430
21.8	Assigning the Mesh.....	431
21.9	Vertex Groups.....	433
21.10	Correct Parenting Issues.....	434
21.11	Parenting Legs.....	435
21.12	Inverse Kinematics (IK).....	435
21.13	Elbow Target Bones.....	438
21.14	IK Chains for the Legs.....	438
21.15	Pinning the Feet.....	440
21.16	Controlling Hips and Torso.....	440

21.17	Pinning the Hands.....	442
21.18	Keeping on Track.....	442
21.19	Setting a Constraint Slider.....	444
21.20	Correcting Hand Movement.....	444
21.21	Head Rotation Tweaks.....	444
21.22	Translating the Rig.....	445
21.23	Pre-Assembled Armatures.....	445
21.24	Pre Rigged Characters.....	446
21.25	Corrective Smooth Modifier.....	447
21.26	Summary to This Point.....	448
21.27	Rigging with Rigify.....	449

CH22 Shape Keys & Action Editors.....477

22.0	Shape Key Editor.....	478
22.1	Add a Key Slider.....	479
22.2	Set Limits of Movement.....	479
22.3	Inserting a Keyframe.....	480
22.4	Inserting a Second Keyframe.....	480
22.5	Inserting Multiple Keyframes.....	481
22.6	The Animation.....	481
22.7	Additional Keys.....	481
22.8	Action Editor.....	482
22.8	Shape Keys and Action Editor in Practice.....	483

CH23 Fluid Simulation..... 487

23.0	The Quick Fluid Method.....	488
23.1	Starting from Scratch.....	490
23.2	The Bakery.....	493
23.3	Fluid Objects.....	494
23.4	Viscosity Presets.....	496
23.5	Fluid Simulation Examples.....	496

CH24 Smoke Simulation..... 511

24.0	Quick Smoke.....	512
24.1	Smoke from Scratch.....	514
24.2	The Domain.....	514
24.3	The Emitter.....	515
24.4	Rendering Smoke.....	516
24.5	Domain Render Settings.....	516
24.6	Lighting Effect.....	517
24.7	Smoke With Color.....	518
24.8	Fire.....	519
24.9	Smoke Plus Fire.....	520
24.10	Smoke Animation Preview.....	521
24.11	Smoke Recap.....	521

24.12	Smoke from Particles.....	521
24.13	Final Exercise.....	525
24.14	Summary.....	526
CH25 Nodes.....		527
25.0	Introduction.....	528
25.1	Node Arrangement.....	530
25.2	Material Nodes.....	532
25.3	Texture Nodes.....	542
25.4	Compositing Nodes.....	547
25.5	Node Groups.....	550
25.6	Nodes and Cycles Render.....	552
25.7	Summary.....	552
CH26 Cycles Render.....		553
26.0	PC Specifications.....	554
26.1	How To Start Cycles.....	554
26.2	Create an Object Light Source.....	559
26.3	Cycles in Perspective.....	561
26.4	Special Effects.....	568
26.5	Texture in Cycles.....	571
26.6	Summary.....	572
CH27 Game Engine.....		573
27.0	Game Environment.....	574
27.1	Logic Editor Windows.....	576
27.2	Logic Block Arrangements.....	578
27.3	Reinforcing Fundamentals.....	584
27.4	Actions.....	588
27.5	Game Animation.....	596
27.6	Rigid Body Dynamics.....	598
27.7	Making a Stand Alone Game.....	602
27.8	Summary.....	605
CH28 Video Sequence Editor.....		607
28.0	Making a Movie.....	608
28.1	The Video Editing Screen.....	610
28.2	Storyboard.....	611
28.3	File browser Window.....	611
28.4	Video Sequence Editor.....	612
28.5	Rendering the Movie File.....	617
28.6	Summary.....	617

CH29 Drivers.....	619
29.0 Blender Drivers.....	620
29.1 Randomise Object Properties.....	622
CH30 Installing Add-Ons.....	633
30.0 Celtic Knot Generator.....	634
30.1 Finding the Celtic Knot Zip File.....	634
30.2 Installing the Python Script.....	635
30.3 Activating the Script.....	636
30.4 Using the Script.....	637
30.5 Summary.....	638
Internet Resources.....	639
Appendix A.....	641
Index.....	645
