List of Illustrations	viii
1 Introduction	1
2 Setting the scene: the changing innovation environment	5
Introduction	5
International growth	6
World manufacturing patterns	8
Improved access to world markets	10
Concentration of international trade	13
Rising sophistication	16
Models of economic development and the future	18
Conclusions: downwave or upwave?	22
3 Setting the scene: the demands of innovation	26
Introduction	26
Strategy	27
Resource requirements	30
Complexity	36
Meeting targets	38
Success and failure	39
Knowledge wars	42
4 Innovation opportunities	45
Introduction	45
Main types of innovation	45
Sector creating innovations	46
Performance extending innovation	50
Technological reorganization	53

Branding innovation	56
Process innovation	61
Design innovation	66
Reformulation	70
Service innovation	72
Packaging innovation	76
5 Defining market attractiveness	81
Introduction	81
Size of market, current and potential growth	81
Substitutes	84
Stage in technological development	85
Diffusion rates	87
Market access: non-behavioural diffusion barriers	91
Market value added	93
Relative product life	95
Synergy	96
Summary	98
6 National resources for innovation	99
Introduction	99
Domestic policy	99
Support for infrastructure	102
Government support for the labour market	102
National investment in research and development	110
The maintenance of a resource base for innovation	115
7 Corporate resources for innovation	118
Structure	118
Structural reorganizations for innovation	127
Core competence	145
Mosaic management	148
8 Matching resources to market	151
Introduction: the role of strategic models	151
The innovation matrix	163
Evaluating routes for knowledge acquisition	171
9 Information management and protocol development	179
Introduction	179
The changing information environment	179
Defining information demands	182
Protocol development	186
The demands of synergy	190

6	The role of concept development in the product development	
1	process	191
6	The early stages of new product development	193
0		
2		
6	10 Testing	194
	Introduction	194
1	Defining the testing requirements	195
1	Testing methods	197
1	Defining the test area	200
4	Establishing data requirements	201
5	Structuring information for test markets	202
7	Summary	203
1		
3	11 The golden rules of innovation	204
5	Introduction	204
6	Think strategic	205
8	Think different	205
	Think customer benefit	206
9	Think detail	206
9	Think internal	206
9	Think knowledge	207
2	Think people	207
2	Think thin	208
